Air Resources Board

Local Advisory Group Meeting Wilmington

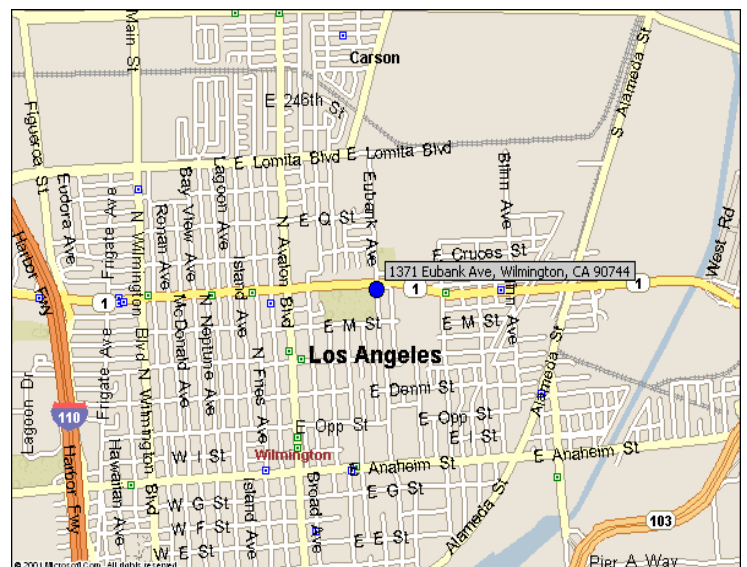

The California Air Resources Board invites you to attend our Local Advisory Group Meeting in Wilmington, California on June 27, 2006. This Local Advisory Group is part of Cal/EPA's Children's Environmental Risk Reduction Plan (ChERRP) and is open to anyone who wishes to participate. The ChERRP includes pilot projects that will provide an opportunity to explore strategies for reducing environmental risks to children. At this meeting, updates on several projects underway in the Wilmington Area will be provided and community input will be solicited. In addition, Mr. David Jones with the Los Angeles City Code Enforcement Bureau will speak to the group about issues involving container storage yards. Mr. Jerry Campbell, with the California Department of Pesticides Regulation, will attend the meeting to clarify any community concerns regarding methyl bromide fumigation chambers in the Port area. Mr. Kurt Florin, LA County Agricultural Commissioner, will also be available to answer questions about permits and requirements for methyl bromide fumigation chambers. We look forward to your participation in this critical meeting regarding community concerns.

Directions
